

THIS IS ALLERGAN

I am proud to introduce you to Allergan plc (NYSE:AGN), a bold, global pharmaceutical company and a leader in a new industry model – Growth Pharma. Our world-class team develops, manufactures and commercializes innovative branded pharmaceuticals and biologic products for patients around the world.

Allergan is one of the world's fastest growing pharmaceutical companies with a deeply established commercial presence in approximately 100 countries. Fueled by our Open Science R&D model and one of the broadest development pipelines in the industry, we are committed to innovation and addressing unmet medical needs. Together, we are carving new paths and taking bold, decisive actions that deliver results and better outcomes for patients and providers. Together, we are Allergan.

PIONEERING A NEW INDUSTRY MODEL

The needs of patients and healthcare providers are changing fast. Our Growth Pharma operating model powers us to meet these needs and offer the best ideas, products and services.

POWERING BOLD IDEAS THROUGH R&D

Allergan has built one of the broadest development pipelines in the industry through its Open Science R&D model. A high percentage of our pipeline is sourced by partnering externally with biotech companies, specialty pharmaceuticals, academia and other companies while significant dollars are continually invested in R&D. All programs enter into our best-in-class product development and commercialization platform to build a sustainable R&D portfolio. Today, Allergan has more than 65 mid-to-late stage programs in development.

BOLD MEANS DOING WHAT IS RIGHT

OUR BOLD CULTURE

Our Company's success is powered by an unwavering commitment to act bold and make our business better, faster and stronger.

OUR CUSTOMER FOCUS

Most companies talk about the importance of customers. At Allergan, we do more than talk. We listen to our customers about their business, their needs and their challenges. We ask questions and are open to ideas. And then we take action to meet our customers' needs. We drive change to create impact. We achieve the unexpected. We get results. This is The Allergan Difference.
