

## **OPTIVE FUSION® Lubricant Eye Drops**

### **Indications:**

OPTIVE FUSION® Lubricant Eye Drops are for the instant relief of dry, irritated and gritty eyes. Compatible with contact lenses. May be used as a protectant against further irritation.

### **Each mL contains:**

5mg Carmellose sodium  
9 mg Glycerin  
1 mg Sodium hyaluronate  
0.1 mg PURITE® (preservative)

### **Direction for use:**

Instil 1 or 2 drops in the affected eye(s) as needed.  
Can be used as often as needed.  
Contents are sterile if imprinted seal around cap is intact.  
Discard 3 months after opening.

### **Precautions:**

**For external use only.** Keep out of reach of children. To avoid contamination, do not touch tip of container to any surface. Replace cap after use. Discontinue use and consult a doctor if you experience eye pain, changes in vision, continued redness or irritation of the eye, or if the condition worsens. Do not use if the solution changes colour.

### **Adverse effects:**

In a clinical study (10078X-001), most adverse reactions were ocular and mild and none were serious. The most frequent adverse reaction reported for at least 2% of subjects receiving OPTIVE FUSION® multi-dose eye drops was eye pain with a frequency of 2%.

### **Pack Size:**

The marketed pack size is a 10 mL multi-dose bottle

### **Storage:**

Store below 25°C

### **Scheduling:**

Unscheduled

Sterilised using aseptic processing techniques.

### **Manufacturer:**
