

OPTIVE FUSION® Preservative-Free Lubricant Eye Drops

Indications:

OPTIVE FUSION® Preservative-Free Lubricant Eye Drops are for the instant relief of dry, irritated and gritty eyes. Compatible with contact lenses. Suitable for use post LASIK surgery. May be used as a protectant against further irritation.

Each mL contains:

5mg Carmellose sodium
10 mg Glycerin
1 mg Sodium hyaluronate
No preservative

Directions for use:

Make sure container is intact before use. To open, completely twist off tab, then pull to remove.

Dosage:

Instil 1 or 2 drops in the affected eye(s) as needed and discard the unused contents. Can be used as often as needed.

Precautions:

For external use only. Keep out of reach of children. To avoid contamination, do not touch tip to any surface. Discontinue use and consult a doctor if you experience eye pain, vision changes, continued redness, eye irritation, or if the condition worsens or persists for more than 72 hours. Do not use if the solution changes colour.

Adverse effects:

In a clinical study (11002X-001), most adverse reactions were ocular and mild and none were serious. The most frequent adverse reactions reported for at least 2% of subjects receiving OPTIVE FUSION® unit-dose eye drops have been listed below and their frequency has been noted in parentheses: eye irritation (6.7%), conjunctival hyperaemia (4.0%), foreign body sensation in eyes (3.6%), erythema of eyelid (3.1%), blepharitis (3.1%), abnormal sensation in eye (2.7%), eye pain (2.2%) and blurred vision (2.2%).
