
INSTRUCTIONS FOR USE

CELLUVISC®

Lubricant Comfort Solution

CELLUVISC lubricates the surface of your eyes, relieving the feeling of dryness, irritation, and stinging caused by environmental factors.

Description

CELLUVISC is a preservative free unit-dose sterile solution, which contains carboxymethylcellulose sodium 1 %, calcium chloride dihydrate, potassium chloride, sodium chloride, sodium lactate and purified water.

Instructions for use

- Wash your hands before use.
- Tear one single dose container from the strip.
- Ensure that the single use container is intact.
- To open, completely twist off the tab.
- Place one or two drops into each affected eye.
- Discard any remaining solution, and dispose of the unit dose container properly.
- For single use only.

Precautions

- Do not use if allergic to any of the ingredients.
- Do not swallow solution.
- To avoid contamination, do not touch open-end of the vial on any surface, and avoid direct contact with the eye.
- Discard open unit dose vial after use.
- Do not use after expiry date marked on the product.
- Keep out of the reach and of children.
- Store below 25 °C.
- Ensure that the unit dose vial is intact before use.
- Allow 15 minutes between the administrations of any other ophthalmic products.
- Contact lenses should be removed before using this product and may be inserted after 15 minutes.
- It may cause transient blurring of vision.

Warnings

If your symptoms persist please discuss with your eye care specialist.

This product is preservative free and should be used immediately after opening to avoid contamination which could result in eye infections.

How supplied

CELLUVISC is supplied in foil wrapped pouches. Each vial containing 0,4 ml of solution.
